LeetCode

## SUMMARY

Full Stack Web Developer and B.Tech Information Technology student specializing in MERN stack applications. Skilled in RESTful API development, cloud deployment, and building scalable user-centric systems with strong foundations in Data Structures and Object-Oriented Programming.

## EDUCATION

### RCC Institute of Information Technology (RCC IIT)

2022 – 2026

*B.Tech - Information Technology*, Kolkata, West Bengal

CGPA: 7.2 (Till 6th Semester)

**Relevant Coursework:** DSA, DBMS, OS, CN, Software Engineering, OOP

### Gourhati Haradas Institution (H.S)

2022

WBCHSE Board — 88%

### Gourhati Haradas Institution (Madhyamik)

2020

WBBSE Board — 87%

## TECHNICAL SKILLS

**Languages:** Java, C, JavaScript, TypeScript

**Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Shadcn UI

**Backend:** Node.js, Express.js, REST APIs, JWT Authentication

**Databases:** MongoDB, MySQL, SQL

**Tools:** Git, GitHub, Postman, VS Code, Vercel, Render, Netlify

**Core:** Full-Stack Development, API Design, Cloud Deployment, CI/CD

## PROJECTS

### Doctor Appointment Booking System (MERN Stack)

GitHub

- Developed a production-ready healthcare system for patients and doctors.
- Implemented JWT authentication and role-based access control.
- Integrated Stripe and Razorpay payment gateways (test mode).
- Built admin dashboard with analytics and appointment management.
- Deployed on Vercel and Render; media handled via Cloudinary.

### Full Stack Job Portal Application

GitHub

- Designed job platform with authentication and resume submissions.
- Developed RESTful APIs with role-based authorization.
- Implemented job search and filtering functionality.
- Added employer dashboard for managing posted jobs and applications.

### Full Stack Instagram Clone

GitHub

- Implemented chat and notifications using Socket.IO.
- Built posts, likes, comments, and profiles.
- Designed responsive UI using Tailwind CSS.
- Optimized image loading and feed performance.

## ADDITIONAL INFORMATION

**Subjects:** DBMS, Computer Networks, Operating Systems, DSA

**Interests:** Full Stack Development, Open Source Contribution, Cloud Engineering
