PROFESSIONAL SUMMARY

Full-Stack MERN Developer with hands-on experience building scalable, secure, high-performance web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in REST API design, JWT authentication, and payment/real-time integrations, with a track record of measurable impact (40% faster bookings, 30% quicker search, 45% faster load times). Comfortable owning a feature end-to-end – from schema design and API development to a responsive, production-ready UI – while collaborating with senior engineers in Agile, Git-driven workflows. Strong DSA foundation with 240+ problems solved on LeetCode, and a genuine interest in system design and clean, maintainable code.

EXPERIENCE

MERN Stack Developer Intern

May 2026 – Present

PAS Digital Technologies, Salt Lake, Kolkata, India

- Built full-stack web applications in a production-grade environment using MongoDB, Express.js, React.js, and Node.js.
- Partnered with senior developers on REST API design, database schema optimization, and responsive UI in Tailwind CSS.
- Implemented JWT authentication and authorization to secure user data across multiple projects.
- Practiced Git-based version control, code reviews, and Agile workflows alongside the engineering team.

PROJECTS

Doctor Appointment Booking Platform

MERN, JWT, Stripe, Razorpay | GitHub | Live Demo

- Built a scalable healthcare platform with JWT and bcrypt authentication for secure user data protection.
- Developed a real-time appointment scheduling system, boosting booking efficiency by 40%.
- Integrated Stripe and Razorpay for secure payments with role-based access for patients, doctors, and admins.
- Delivered a role-based admin dashboard with data visualization for managing users and workflows.

Job Portal Web Application

MERN, Tailwind CSS, REST APIs, JWT | GitHub | Live Demo

- Developed a full-stack job portal with authentication, job search, filtering, and application tracking.
- Optimized RESTful APIs and database queries with indexing, cutting API response time by 30%.
- Added dynamic filtering with debounced input and pagination, improving UX and reducing server load.
- Built a responsive React/Tailwind frontend with resume upload and an employer dashboard.

Instagram Clone – Social Media Application

MERN, Socket.IO, Cloudinary, JWT | GitHub | Live Demo

- Built a social app with authentication, posts, likes, comments, follow/unfollow, and a personalized feed.
- Implemented real-time chat and live notifications via Socket.IO with online status and message history.
- Integrated Cloudinary for optimized media delivery, reducing load time by 45%.
- Improved frontend performance using React hooks, context API, and JWT refresh token rotation.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Shadcn UI, Responsive Design

Backend: Node.js, Express.js, REST API Design, JWT Authentication, Bcrypt

Databases: MongoDB (Mongoose), MySQL, Schema Design, Query Optimization

Tools: Git, GitHub, Postman, VS Code, Vercel, Render, Netlify, Cloudinary, Agile

EDUCATION

RCC Institute of Information Technology

2022 – 2026

B.Tech in Information Technology – CGPA: 7.2/10

Kolkata, West Bengal

Gourhati Haradas Institution

2022

Higher Secondary (WBCHSE) – 88%

Gourhati Haradas Institution

2020

Secondary (WBBSE) – 87%

ACHIEVEMENTS & CERTIFICATIONS

- Solved 240+ Data Structures and Algorithms problems on LeetCode.
- Active contributor to open-source projects; participated in college-level hackathons.
