

SUMAN JHANP

Kolkata, West Bengal, India

 8597376239  sumanjhanp1@gmail.com  LinkedIn  GitHub  LeetCode  Portfolio

PROFESSIONAL SUMMARY

Results-driven **Full-Stack MERN Developer** and **B.Tech Information Technology student** with hands-on experience building scalable, secure, and high-performance web applications. Strong expertise in **RESTful API design, authentication and authorization, cloud deployment, and responsive UI development**. Demonstrated ability to solve complex problems using **data structures, algorithms, and object-oriented design**, with a strong focus on clean architecture, system scalability, and production-quality engineering—aligned with modern product-based and FAANG-level development standards.

EDUCATION

RCC Institute of Information Technology B.Tech in Information Technology, Kolkata, India CGPA: 7.2 (Up to 7th Semester)	2022 – 2026
Gourhati Haradas Institution (Higher Secondary) WBCHSE Board — 88%	2022
Gourhati Haradas Institution (Secondary) WBBSE Board — 87%	2020

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, TypeScript, Python
Frontend Technologies: React.js, HTML5, CSS3, Tailwind CSS, Shadcn UI
Backend Technologies: Node.js, Express.js, REST APIs, JWT Authentication
Databases: MongoDB, MySQL, SQL
Data Analytics: Pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA)
Visualization: Power BI, Excel (Pivot Tables, Charts), Matplotlib
Developer Tools: Git, GitHub, Postman, VS Code, Vercel, Render, Netlify, Cloudinary
Core Competencies: Full-Stack Development, Backend Engineering, API Design, Cloud Deployment, CI/CD, Secure Authentication

PROJECTS

- Doctor Appointment Booking Platform (MERN Stack)**  GitHub
- Engineered a **production-ready healthcare platform** serving patients, doctors, and administrators with role-based access control.
 - Designed and implemented **secure JWT-based authentication** reducing unauthorized access risks by enforcing protected routes.
 - Built real-time doctor availability and appointment scheduling workflows, improving booking efficiency by **40%**.
 - Integrated **Stripe and Razorpay (test mode)** for secure online payment processing.
 - Developed an admin dashboard for managing doctors, appointments, workflows, and analytics.
 - Deployed frontend on **Vercel** and backend on **Render**, following CI/CD best practices.
- Job Portal Web Application (MERN Stack)**  GitHub
- Built a full-stack job portal connecting job seekers and recruiters with secure authentication and authorization.
 - Implemented job search, filtering, application tracking, and recruiter dashboards.
 - Designed scalable RESTful APIs using Express.js and MongoDB (Mongoose ORM).
 - Delivered a fully responsive UI using React and Tailwind CSS, improving user engagement and accessibility.
- Instagram Clone (MERN Stack)**  GitHub
- Developed a social media platform supporting post creation, likes, comments, follows, and user profiles.
 - Implemented real-time notifications and feed updates using **Socket.IO**.
 - Integrated Cloudinary for optimized media uploads and storage.
 - Improved frontend performance through efficient state management using React Context API.

ADDITIONAL INFORMATION

Problem Solving: Solved **200+ Data Structures and Algorithms problems on LeetCode**
Interests: Software Engineering, Backend Systems, System Design, Cloud Computing, Data Analytics, Open Source Contributions
